

# LifeBook P1610 Notebook

*With its feather-light weight, innovative bi-directional hinge, and versatile indoor/outdoor touch screen display the LifeBook® P1610 notebook is one of the most compelling mobile computing products on the market today.*

*This ultra-portable tablet computer offers the power and convenience of a notebook with the unique versatility to handle special-purpose applications that are best suited for a slate tablet.*

## BENEFITS

### Versatile Design

The LifeBook P1610 notebook is one of the most versatile mobile computing products ever designed for the mobile professional. Its compact size, extreme light weight (just over two pounds), innovative touch screen technology, and ability to easily convert from a standard notebook to a slate tablet makes it a “must-have” for on-the-go computing. You can effortlessly transform a standard notebook into a slate tablet configuration by rotating and folding down the screen. Navigate through forms-based or menu-driven applications with your finger or with the included stylus. For entering data using the keyboard, simply rotate the screen and tilt it up into a notebook configuration.

### Boundless Connectivity

Being able to conduct business in real time is crucial for maximum productivity. You need to have access to business-critical resources at all times regardless of your geographical location. The LifeBook P1610 notebook lets you access your office network or the Internet with ease. The integrated 10/100/1000 Gigabit Ethernet LAN, modem, and choice of Intel® PRO/Wireless 3945ABG or Atheros Super AG® (802.11a/b/g) WLAN gives you all the options you need to stay connected. With excellent connectivity and data transfer rates, the built-in diversity antenna lets you take full advantage of being wireless.

### Mobile Performance

Equipped with an indoor/outdoor display, the high-performance yet energy-efficient Intel Core™ Solo Ultra Low Voltage U1400 Processor, and the full power and enhanced functionality of Genuine Windows XP Professional or Tablet PC Edition, the LifeBook P1610 notebook delivers big when it comes to mobile productivity in a small package.

### No Compromises

Just because it's light and compact doesn't mean that it's saddled with compromises. In fact, the LifeBook P1610 notebook has more features and functionality than most full-sized mobile devices. Larger devices are generally too heavy and bulky for practical on-your-feet computing. Most small PDA-type devices also come with PDA-type compromises; not so with the LifeBook P1610 notebook. You get the best of both worlds—extraordinary portability, an indoor/outdoor touch screen display, keyboard/pen driven input, full Genuine Windows XP Tablet PC Edition 2005 or Genuine XP Professional support, ample processing power, long battery life, integrated fingerprint biometrics, and industry standard ports/card slots like PCMCIA and Secure Digital. For a complete desktop work space, consider our optional port replicator for drop-and-dock desktop convenience.

### Quality and Reliability

The close integration of Fujitsu design, manufacturing, and service creates some of the highest quality products offered in the PC market. In a time when most PCs are assembled by third-party vendors, Fujitsu takes pride in its own world-class design and manufacturing capabilities.

## OVERVIEW

- Available with Genuine Windows XP Professional or Genuine Windows XP Tablet PC Edition 2005
- All-new 8.9" WXGA indoor/outdoor touch screen display
- High-performance Intel Core Solo Ultra Low Voltage U1400 Processor
- Bi-directional hinge
- Integrated biometric fingerprint sensor
- Built-in digital microphone
- Optional Bluetooth v2.0
- Choice of Intel PRO/Wireless 3945ABG or Atheros Super AG Wireless LAN (802.11a/b/g)
- Choice of standard 3-cell or high-capacity 6-cell batteries for long battery life
- Bundled with EverNote Plus or OneNote 2003

- 1) Battery life estimates reflect the results of BAPCo MobileMark2005 Productivity Workloads performed upon systems with battery life setting enabled. Actual battery life will vary based on screen brightness, applications used, features selected, power management settings, battery conditioning, and other customer preferences. DVD/CD-RW, DVD Writer, LAN, wireless LAN or hard drive usage may also have a significant impact on battery life.
- 2) Accessible capacity may be less due to formatting, applications, and backup utilities.
- 3) The internal modems on all Fujitsu notebooks from Fujitsu Computer Systems Corporation are only qualified for use with telephone systems in selected countries, including the United States and Canada. For a list of certified countries, please check <http://www.computers.us.fujitsu.com/modems>.
- 4) Actual speeds over U.S. telephone lines vary, and are less than 56Kbps due to the current FCC regulations and line conditions.
- 5) Requires Computrace or LoJack for Laptops service.
- 6) Service and warranty turnaround time may vary by country and product. The International warranty is only valid for products purchased in North, Central, and South America.

\*Not all Windows® Vista™ features are available for use on all Windows Vista Capable PCs. All Windows Vista Capable PCs will run the core experiences of Windows Vista, such as innovations in organizing and finding information, security, and reliability. Some features available in premium editions of Windows Vista—like the new Windows® Aero™ user interface—require advanced or additional hardware. Check [www.windowsvista.com/getready](http://www.windowsvista.com/getready) for details.

<b>Operating Systems</b>	Windows® Vista™ Capable* Genuine Windows® XP Tablet PC Edition 2005 or Genuine Windows® XP Professional
<b>Software</b>	Fujitsu Display Controls, Fujitsu Hot Key Utility, Adobe Reader®, Microsoft® Reader, Microsoft® Journal Viewer, Fujitsu Driver Update Utility, Fujitsu Shock Sensor Utility, Fujitsu Security/Application Panel application, Fujitsu Touch Screen Calibration Utility, Softex OmniPass, EverNote® Plus 1.1, ritePen 2.5, DialKeys by Fortune-Fountain
<b>Optional Software</b>	Depending on your system configuration, you may also receive: Microsoft® Works or Microsoft® Office Small Business Edition 2003, Microsoft® Office OneNote® 2003, TPM Utility, Bluetooth Utility
Note: May require an external USB optical drive to install the optional software	

## Key Specifications

<b>Processor</b>	Intel® Core™ Solo Processor Ultra Low Voltage U1400 (1.20 GHz, 2 MB L2 cache, 533 MHz FSB)	
<b>Chipset</b>	Intel® 945GMS chipset	
<b>System Memory</b>	One Micro-DIMM slot; min. 512 MB; max. 1 GB	
<b>Digitizer</b>	Resistive (Passive)	
<b>Display</b>	LCD	8.9" wide XGA indoor/outdoor touch screen display
	Video Controller	Intel® Graphics Media Accelerator 950; Dynamic Video Memory Technology (DVMT) responds to application requirements and efficiently allocates the proper amount of system memory (up to 128 MB) for optimal graphics and system performance
	Resolution	Internal display (max): 1280 x 768, 16M colors External monitor display (max): 1280 x 1024, 16M colors
<b>Hard Drive<sup>2</sup></b>	30 GB, 60 GB or 80 GB (4200 rpm), P-ATA 100; Shock-mounted Fujitsu Shock Sensor hard drive protection system	
<b>Audio</b>	Sigmatel ST9228 Stereo and headphone/line-out jacks Microphone/line-in jack Internal digital microphone	
<b>Communication</b>	Multinational <sup>3</sup> 56K <sup>4</sup> V.90 modem; 10/100/1000 Gigabit Ethernet LAN	
<b>Wireless Communication</b>	Choice of Intel® PRO/Wireless 3945ABG or Atheros Super AG® (802.11a/b/g) WLAN; Wi-Fi®, CCX and WPA certified; Diversity antenna; optional Bluetooth (2.0) Personal Area Network (PAN) for file transfer and data synchronization with other Bluetooth devices	
<b>User Interface</b>	StickPoint by Alps, 82-key keyboard with 16 mm key pitch; 2 mm key stroke	
<b>Ports</b>	Two USB 2.0 External monitor Modem (RJ-11) Ethernet (RJ-45)	Headphone/line-out Microphone/line-in Docking connector
<b>Card Slots</b>	One Type I/II PCMCIA slot (32-bit PC CardBus architecture) One Secure Digital (SD) Card slot	
<b>Security Platform</b>	Integrated fingerprint sensor Embedded Trusted Platform Module (TPM) 1.2 Two-level hard drive and BIOS password protection Computrace BIOS Persistence Module <sup>5</sup> Security lock slot	
<b>Battery Life<sup>1</sup></b>	Standard Lithium ion (3-cell, 10.8V, 2600 mAh); up to 3.25 hours of battery life High-capacity Lithium ion (6-cell, 10.8V, 5200 mAh); up to 7.0 hours of battery life	
<b>AC Adapter</b>	Autosensing dual voltage support, 100-240V AC supplying 16V DC, 3.75A	
<b>Dimensions/Weight</b>	9.13" x 6.57" x 1.36"/1.46"; Approximately 2.2 lbs. with a 3-cell battery 9.13" x 7.32" x 1.36"/1.46"; Approximately 2.5 lbs. with a 6-cell battery	
<b>Operating Temperature</b>	41°F to 95°F / 5°C to 35°C (ambient temperature); 20% to 85% relative humidity, non-condensing	
<b>Non-Operating Temperature</b>	5°F to 140°F / -15°C to 60°C, 8% to 85% relative humidity; non-condensing	
<b>Key Accessories</b>	Port replicator with two USB 2.0, external monitor, Ethernet (RJ-45), and DC-in For a full list of accessories, visit <a href="http://www.shopfujitsu.com">www.shopfujitsu.com</a> or call 1-800-FUJITSU	

## Service & Regulatory Information

<b>Compliance</b>	FCC Part 15B Class B and FCC Part 15C; IC ICES-003 Class B and RSS-210 UL-cUL Listed FCC Part 68; IC CS-03 CE Marking ENERGY STAR®
<b>Warranty<sup>6</sup></b>	One- or three-year International Limited Warranty on select corporate configurations; 24/7 technical support; Fujitsu extended service plans available.
